

## Treat Tube and Card Instructions

1. Card Base - Basic Black, cut at 4" x 8-1/4"
2. Score at on the 8-1/4" side at 3-1/4", 3-7/8" and 4-1/2"
3. Using your paper snips, cut between the scored lines (cuts shown in red below) to create the tab for the treat tube on the left of the card
4. Add Tear N Tape as shown below in the blue rectangle, then fold only the tab against it. Push the center piece "not glue down" out to create the tab to hold the Treat Tube
5. Cut and add layers to your desire. On this example I used 3" X 3" and 1" X 3" pieces of Spooky Night Designer Series Paper
